LOOMI

The AI sales agent that closes while you sleep

BY ANTHANA · JANUARY 2026

Executive Summary.

Loomi is an AI-powered sales agent that operates natively on WhatsApp, enabling SMBs to respond to leads 24/7 and close sales without human intervention.

YEAR 1 TARGET

Built by **Anthana**, a profitable software company with \$45,000 USD in verified revenue. SMBs lose up to 40% of potential sales because they can't respond fast enough. Hiring sales reps costs \$800-\$3,000/month. Loomi solves this at \$199-\$599/month with 24/7 availability.

The Problem.

SMBs in emerging markets lose 40% of potential sales because they can't respond to leads fast enough.

67%

EXPECT RESPONSE IN 10 MIN

78%

BUY FROM FIRST RESPONDER

40%

SALES LOST TO SLOW RESPONSE

Why this happens:

- ✓ **Cost:** Sales reps cost \$800-\$1,500/month in LATAM, \$1,500-\$3,000 in MENA
- ✓ **Limited hours:** Humans work 8-10 hrs/day, missing evenings & weekends
- ✓ **Scaling:** Hiring more staff is expensive and operationally complex
- ✓ **Turnover:** Average 25-35% annual turnover requires constant training

REGION	WHATSAPP PENETRATION	BUSINESS USAGE
Mexico	95%	Primary channel for 70% of SMBs
Brazil	98%	80% prefer WhatsApp for business
UAE	85%	Growing rapidly in commerce
Saudi Arabia	73%	Accelerating with Vision 2030

\$23B+ Market.

Two high-growth regions with WhatsApp dominance and underserved SMB markets.

Latin America (Current)

Total SMBs	30+ million
------------	-------------

WhatsApp	95%+ penetration
----------	------------------

Growth	25% annually
--------	--------------

TAM	\$15B+

TAM	\$8B+
-----	-------

Key: UAE, Saudi Arabia, Egypt, Qatar

Why MENA is Strategic

- ✓ **Same platform:** WhatsApp dominance mirrors LATAM—playbook transfers
- ✓ **Higher ARPU:** GCC purchasing power exceeds LATAM by 3-5x
- ✓ **Government tailwinds:** UAE Vision 2031, Saudi Vision 2030
- ✓ **Underserved:** Few localized AI sales solutions for Arabic speakers
- ✓ **Gateway:** Dubai as launchpad to 400M+ consumers

Business Model.

SaaS subscription with strong unit economics. 60-80% cheaper than human sales reps.
